

## Darn Quick Termite and Fumigation

7401 N.W. 7<sup>th</sup> Street, Unit 7 Miami, FL 33126

Tel: (305) 266-2220 Fax: (305) 266-0113

### Pet Safety Sheet

Your pets are extremely important to us and we like to take this time to go over a few things in their behalf.

- If your house has a crawl space under your floor, make sure all exterior crawl space vents and access are covered. If not, you should cover them before fumigation is done to make sure no animals are under your house.
- Also, round up and get all animals out of your property before fumigation crew arrives at property. Cats especially get nervous and hide and are impossible to find. Animals can easily be over looked.
- Darn Quick Termite and Fumigation will do a complete walk through but it is a lot safer if you remove them from the premises before we get there.
- Dogs cannot stay outside property being fumigated; larger dogs can remove sand snakes and get under tarps. Kennels are okay if they are far away from the property and can be securely locked.
- If your neighbor's cat or dog frequently goes to your yard or property, make sure you notify your neighbor of the time and date of the fumigation so they can secure their pets properly to keep them safe.

For any more information on your pet safety please feel free to call our office.
